PINNED REPOSITORIES

custom-account-factory

Organizations-first AWS account provisioning control plane with clean layer separation and a full workflow engine.

TypeScript

★ 142 18

ferrum-net

Blazing-fast async packet inspection engine. Supports BPF, eBPF hooks, and a custom rule DSL.

Rust

★ 891 67

golem

Minimal OCI-compliant container runtime in Go. Sub-5 ms cold start, designed for edge deployments.

Go

★ 428 🔖 41

pwn-toolkit

CTF exploitation toolkit: ROP chain builder, heap visualiser, format-string oracle. x86 & ARM64.

Python

★ 312 🔖 55

kernelwatch

Linux kernel module for real-time syscall auditing with eBPF. Low-overhead, production-safe.

C

★ 203 🔖 29

darknet-recon

OSINT automation framework for passive reconnaissance. Modular plugins, Tor-routing support.

Python

★ 174 🔖 22

MILESTONES

2026 Q1

●

Launched custom-account-factory v1.0 · 3k downloads in first month

2025 Q4

●

CTF podium — NullCon HackIM 2025 · Top 50 globally

2025 Q3

●

ferrum-net merged into upstream distro · featured on LWN.net

2025 Q1

●

kernelwatch accepted into Linux Weekly Security Digest

2024 Q3

●

500-star milestone on ferrum-net · community forks grew to 40+

2024 Q1

●

First open-source contribution to the Rust compiler (perf opt.)
